

# Draw On Our Expertise

In as little as nine months, you could be working in the healthcare field. Our 18-credit Phlebotomy Technician certificate program prepares you for this high-demand career.

Students who successfully complete the coursework will have the opportunity to become a Certified Phlebotomy Technician (CPT). CPT jobs are projected to grow by 23% through 2028.\*

As a student in this program, you'll learn how to perform blood collection ... conduct CLIA-waived laboratory tests ... verify patient identity ... collect, store and process blood, urine and other specimens for laboratory testing ... and much more.
